

Sprint 3 report

Product Name: Fresh Potatoes

Team Name: HPPH

Sprint 3 due: March 4 2018

Revision number: 1

Revision date: March 4 2018

Actions to stop doing:

Team members are satisfied with current process. For this sprint, we continue to finish building our movie database, and also modifying and beautifying the web pages. Therefore, everything goes well.

Actions to start doing:

The team should also work on the search bar to search movie from the database. Start to improve the users' experience and improve the movie data structure. We need to start merging all parts of works so that we could test the integrity of our website.

Actions to keep doing:

The team should keep building the whole website, as well as beautify the current pages. Also, the team should keep contacting with each other through Wechat, and improve the movie database structure. The team should also keep working on the ticket generator to print a fake ticket for the users.

Work completed:

1. As a back-end developer, I need to write data structure in the cloud server.

We successfully create database into cloud server and we move all the movie data into the cloud server. (8)

2. As a front-end developer, I need to finish review and rating page.

We create the movie detail page and add the html element for review and rating section (8)

3. As a developer, I need to finish movie gallery part.

We create the movie gallery so that users can add movies they have watched into the movie gallery. (8)

Work not completed:

1. As a user, I want to be able to rate movie and give comments.

The rating function is not complete, and users cannot give comments to movies, we will working on that part on sprint 4 (0/6)

Work completion rate:

total user stories completed: 3/4

Total User Story Tasks Completed: 24/30

Final Burn Up Chart:
