

# Sprint 1

Project Name: Fresh Potatoes

Team Name: HPPH

Sprint 1 due: Feb 04

Revision number: 1

Revision date: 1/24/2018

## Goal

We will implement a movie data website including movie information and box office. Users can create their own movie watching timeline.

## User Stories

### 1. As a developer, I need to learn basic languages and skills for building a website

We need to learn HTML5, CSS and Flask framework.(10)

Total user story: 10 hours

### 2. As a front-end developer, I need to build a basic web frame and raw web pages.

We will add basic element to the web page such as navigation bar, body div. (3)

Total user story: 3 hours

### 3. As a user, I want to be able to create an account, and be able to login to the website.

We will import Firebase API and use email authentication for user registration. (1)

We will implement a function to check user email and password if valid. (1)

Total user story: 2 hours

## Team Role

Li Jiang (product owner)

Haoran Liang (developer)

Weiyi Xia (developer)

Xuanyi Zhang (developer)
