

Sprint 4 report

Product Name: Fresh Potatoes

Team Name: HPPH

Sprint 4 due: March 16, 2018

Revision number: 1

Revision date: March 16, 2018

Actions to stop doing:

Team members are satisfied with current process. For this sprint, we continue to finish movie searching features, and improve the “ticket generator”. Therefore, everything goes well.

Actions to start doing:

We have nearly finished our project during this sprint, and then we try to look for and check bugs for our website.

Actions to keep doing:

The team should keep contacting with each other through Wechat, and improve the movie database structure. The team still need to merge all parts of works; also, the tedan should keep building the whole website, as well as beautify the current pages.

Work completed:

1. As a developer, I need to finish the “generate movie tickets” function.

We have successfully built a function, in order to make a “ticket generator” for our website. (6)

2. As a front-end developer, I need to implement movie searching feature.

We have created the searching feature, so that users can search movies by name. (6)

3. As a user, I want to be able to generate movie tickets online.

Users can generate their own movie tickets online by the movies they have watched, so that they could make their tickets for their favorite movies and keep such tickets. (4)

Work not completed:

Work completion rate:

total user stories completed: 3/3

Total User Story Tasks Completed: (16/16)

Final Burn Up Chart:
