Sprint 2 report

Product Name: Fresh Potatoes
Team Name: HPPH
Sprint 2 due: Feb 18 2018
Revision number: 1
Revision date: Feb 18 2018

Actions to stop doing:

Team members are satisfied with current process. For this sprint, we continue to finish building our movie database, and also creating the web frame and web pages. Therefore, everything goes well currently.

Actions to start doing:

The team should work on the modification of the website's frame, in order to shape a good frame. Since the simple frame has only expressed a basic structure of the website, we need to add more sophisticated roles.

Actions to keep doing:

The team should keep building the whole website, as well as beautify the current pages. Also, the team should keep contacting with each other through Wechat.

Work completed:

1. As a back-end developer, I need to store movie data into local database and test.
      We get movie data from internet and store them into local database. (8)

2. As a back-end developer, I need to write framework connecting database and web pages.
      We need to connect database with web-pages and test. (8)

3. As a user, I want to be able to view details of movies in web pages.
      We create the user log-in and sign-up page, also with user database. So that users can create their account in our website. (6)

4. As a front-end developer, I need to beautify website pages.

> We need create CSS files and make web pages in good look. (4/8)

Work not completed:

1. As a front-end developer, I need to beautify website pages.

> We need create CSS files and make web pages in good look. (4/8)
